WOMAN FINALLY SUCCUMBS.

Mrs. Huestis Dies of Gas Poisoning After Long Period of Coma.
New York, March 27.—Mrs. James Huestis of White Plains, N. Y., who for the past sixteen days has been in a state of coma in the Presbyterian hospital as the result of asphyxiation, died during the day.
Mrs. Huestis and her daughter Luella were taken to the hospital from the residence of friends whom they had been visiting, where they were found one morning overcome by gas. In spite of all that could be done for their relief the daughter died three days ago and the mother succumbed during the day.
The coroner's physician, who performed the autopsy on the body of Mrs. Huestis, reported that he found nothing suspicious, or even remarkable in the case to distinguish it from ordinary cases of gas poisoning. Dr. Oliver of the Presbyterian hospital concurred in this view.
Coroner Scholer differed with Dr. Oliver, saying that it was a remarkable length of time for victims of gas poisoning to remain in a state of coma, although it was not unprecedented.

Indian May Testify on Land Frauds.

Chicago, March 27.—Chief "No Shirt" (Sheesh-Mok-Noot) of the Umatilla Indians in Eastern Oregon arrived here during the day on his way to Washington. It is said the Indian chief has been summoned to Washington in connection with the land fraud investigation now going on in Oregon.

MINISTERS FOR PEACE

MAJORITY OF RUSSIAN RULER'S ADVISERS FAVOR TERMINATING THE WAR.

TO BE HELD AT COPENHAGEN

CONFERENCE MAY OCCUR WHEN ENGLAND'S KING VISITS DANISH CAPITAL.

London, March 27.—A St. Petersburg dispatch to the Reuter Telegram company states that the majority of the council of ministers is agreed on the principle of the opportuneness of initiating steps in the direction of peace, and correspondents in the principal European capitals all report that peace is in the air.

According to arrangements which are still liable to revision, King Edward will leave London on April 6. He will join Queen Alexandra at Cologne and thence their majesties will go to Copenhagen for the celebration of the birthday of King Christian, April 18.

The Associated Press correspondent at Copenhagen telegraphs that so far as known King Edward's visit has no connection with Russo-Japanese pourparlers, but that King Christian strongly favors peace, and should the frowner empress of Russia also come to her father's birthday celebration it will be regarded as a signal of a peace conference at Copenhagen.

It is reported that M. D'Iskowski, the Russian minister to Denmark, left St. Petersburg on Saturday for Copenhagen.

According to the Daily Telegraph's correspondent at Kobe, who reports having interviewed the American officers and foreign correspondents captured at Mukden and who have just arrived at Ujin, they all were surprised that no armistice or peace proposals had been made. They confirm previous statements that nobody had the least idea that retreat was imminent until General Kuropatkin's order was suddenly received late on March 9.

JAPAN'S PEACE TERMS

WOULD RESTRICT REBUILDING OF RUSSIAN NAVY FOR MANY YEARS TO COME.

Paris, March 27.—It was stated in diplomatic quarters here during the day that among the conditions of peace which Japan might ask would be that Russia give a pledge to build no more warships for a term of years. A diplomatic official said that such a condition would be the most effective means of assuring Japan against Russia's carrying out her cherished project of naval rearmament for the renewal of hostilities under better conditions than those at present existing.

It is well known that Russia contemplates a huge plan of naval rehabilitation. Admiral Doubasoff, the head of the technical board of the admiralty; Captain Clado, formerly chief tactical officer under Vice Admiral Rojestvensky, and other Russian naval authorities recently have taken the position that peace was desirable until a naval reconstruction could be completed. This appears to have stimulated Japan's diplomats to consider means of avoiding a peace that would be equivalent to no more than a truce during which Russia would have time to forge an effective weapon, and therefore the intimation is now given that limitation of Russian naval armament may figure as a means of ensuring a prolonged peace in the Orient.

Concerning the recent preliminary approaches toward peace, it is now accepted in the highest diplomatic quarters that these preliminary negotiations did not occur here, although Paris may have been the channel through which the results were transmitted to St. Petersburg and Tokyo. However, it is noticeable that there has not been the slightest reference in French newspapers to the peace movement having taken tangible form here or elsewhere, except in continued academic discussion of the peace propaganda and a few vague St. Petersburg dispatches showing that peace is in the air.

PRISONERS FROM MUKDEN.

First Batch of Captured Russians Arrives at Tokio.

Tokio, March 27.—The first of the Mukden prisoners arrived at Tokio during the day en route to the Narashiki barracks. They were transferred at the Omori station, avoiding the city. There were no crowds and consequently there was no demonstra-

tion. The prisoners are poorly clad. The business men's association is arranging for a monster celebration of the capture of Mukden for April 3.

Railway Restored.

Tokio, March 27.—The railway between Mukden and Kaiyuan has been restored and traffic resumed. The railway bridge across the Hun river has not yet been thoroughly repaired and traffic is still interrupted there.

OYAMA PRAISES HIS TROOPS.

Says the Soldiers of Japan Have Fulfilled Every Hope.

Yinkow, via Tientsin, March 27.—Field Marshal Marquis Oyama during the day gave his first interview since coming into the field. He refused to discuss the probability of peace. "I am only a soldier," he said, "not a politician. The Japanese government will arrange terms of peace when the time comes. We were forced to fight this war in the interests of international peace and for the safety of our country. Personally, I have a high regard for Russians. They are soldiers. The officers and men are brave and able and have fought well. During the war between China and Japan I was a commander of the army which captured Port Arthur. With a division and a half of troops we took the city in five hours. The result this time shows the wonderful difference between the Russians and the Chinese, with whom we had previous experience. But our army, both soldiers and officers, performed their duty as Japan knew they would. I was minister of war for Japan for sixteen years, during which time conscription laws were passed. I have closely watched the making of the Japanese army, which has proved what I say, that the officers and the men have fulfilled every hope, as I believe they would in the days, when the Japanese army was composed of the Samurai, professional fighting men. The modern army was drafted from all classes, yet all our hopes have been fully realized by the work this army has done in actual war."

Field Marshal Oyama declined to discuss the future movements or plans of the Japanese army. He intimated that he was ready to continue the war as long as necessary.

Despite the reports to the contrary, Field Marshal Oyama's health is excellent. With his staff he is comfortably quartered in fine Chinese houses, placed at his disposal by the Chinese viceroy.

VERY SIGNIFICANT FEATURE.

Merchants and Commercial Men Join Russian Liberals.

St. Petersburg, March 27.—A very significant and important feature in connection with the political situation is the fact that the disaster and ruin with which trade and industry are threatened is forcing the merchant and commercial classes of the big cities into politics. Heretofore, as a matter of business, they have carefully refrained from meddling in the Liberal movement, but the situation is now so serious that they feel compelled to change their attitude and everywhere they are pronouncing in favor of the Liberal demands for the cessation of the war and for a constitution. M. Morosoff, the Moscow millionaire, who is known as the Russian cotton king, realizing the power of this action, has called a private meeting of leading men in the industrial life of Russia to make representations to the government. Considering the important part played by the bourgeois in revolutions in other countries, the "intellectuals" regard the active support of the merchant class as the greatest victory they can achieve in the struggle they are waging. The peasant movement in the south and west continues to spread. There has been a renewal of the burning and destruction of property in the Chirnikoff government, the peasants attacking especially the property of M. Tereshtenko, a rich sugar refiner, who has 100,000 acres planted to seed. Several landlords have been murdered.

The peasants in other sections have taken the position that they had the right of cutting wood before emancipation and are offering resistance to the police.

OMINOUS QUIET PREVAILS.

Complete Inactivity Reported Along the Whole Russian Front.

Gunshu Pass, March 27.—Everywhere along the front there is complete and ominous quiet. A nurse arriving from Mukden states that the reports of Japanese ill treatment of Russian sick and wounded after the evacuation of Mukden are entirely unfounded. The Japanese treated all who fell into their hands in the most kindly manner and gave the nurses permission to return to the Russian army, saying there were no women of that avocation with the advanced columns. They provided the nurses with credentials, indicated the roads by which they might travel and warned them that they might be under fire west of the railway.

TWO BOMBS THROWN

ONE OF THEM BADLY INJURES THE TITLED CHIEF OF THE WARSAW POLICE.

RESULT OF A CONSPIRACY

OFFICIAL LURED FROM HOME BY AN EXPLOSION AT A POLICE STATION.

Warsaw, March 27.—A bomb was thrown into the carriage of Baron von Nolken, chief of police of Warsaw, at 8 o'clock in the evening. It was reported that the baron was severely wounded.

According to latest information, the attack on Baron Nolken was the result of an elaborate conspiracy of the revolutionary party. Shortly before 8 o'clock at night an elegantly dressed man went to the police station at Praga, a large suburb of Warsaw on the Vistula, and threw a bomb into a room of the station where the men assembled before going on duty. Six policemen were wounded and all the furniture as well as one wall was destroyed. The man started to run away, but was caught by the captain of the station. He was found to be a Jew, but his identity has not yet been discovered. The bomb thrower in trying to escape met a policeman and shot twice, wounding the officer in the stomach. The prisoner himself was wounded and has been placed in the hospital.

A telephone message was immediately sent to Baron von Nolken at the city hall, informing him of the outrage. Baron von Nolken, accompanied by a police official, immediately took a carriage and started for Praga. When passing the castle where the governor general resides, a man standing on the pavement threw a bomb at the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box and the carriage was smashed.

Injuries Believed to Be Serious.

Baron von Nolken was removed to the city hall and doctors were summoned, who found he had received injuries on the head, neck, arm and leg, which are believed to be serious. Meanwhile the police official accompanying Baron von Nolken saw the bomb thrower fleeing and pursued and caught up with him, but the criminal proved the stronger and tore himself away. Another policeman fired after him, without result. Half an hour later a man was found dead in Sowiak street, whom the police at first believed to be the bomb thrower, but he proved to be a plain clothes policeman, who was seen pursuing Baron von Nolken's assailant. The police believe that the latter turned

on the policeman and shot him dead. Baron von Nolken's injuries are serious, but it is thought he will recover.

A girl who was passing the spot when the bomb was thrown was wounded by splinters and had to be taken to the hospital.

According to the theory of the police the revolutionists calculated on Baron von Nolken going to Praga on learning of the explosion of the bomb at the station there, and knew he must pass the castle, that being the only road by which he could reach the only bridge across the Vistula.

The affair caused great excitement. A popular rumor says the revolutionaries adopted this course of informing the police that they have more bombs besides those discovered in the Powonski cemetery Saturday.

Baron von Nolken is very unpopular. He is hated by the masses of the Polish population, who hold him responsible for the sanguinary suppression of the disturbances here at the end of January. He has been here only a year, having come from St. Petersburg, where he was chief of the mounted division of the police.

POLICE ANNOUNCE FAILURE.

Unable to Find Any Clue in Stanford Poisoning Case.

San Francisco, March 27.—It was announced at police headquarters during the day that every known clue in the Stanford case had been run to earth without result. Barring a confession or something "turning up" the police admit that they will never solve the mystery of how in this city strychnine was placed in the mineral water used by Mrs. Stanford. That portion of the mystery connected with her tragic death at Honolulu, the police say, has been solved on the theory that Mrs. Stanford died of natural causes.

Wounded in Fight With Burglar.

Minneapolis, March 27.—Robert Shaver, clerk at the Windsor hotel at 119 University avenue southeast, was seriously wounded in a fight with a burglar in the hotel at 1 o'clock a. m. His hip was cut, he received a wound on one of his hands and a deep gash in the left arm. The burglar escaped.

COMMISSION HELD UP.

Divorced Wife Delays Departure of Consul to Zanzibar.

Washington, March 27.—On complaint of his divorced wife, the commission of Dr. Frederick McMaster of New York, recently appointed consul to Zanzibar, has been held up by the direction of President Roosevelt until an investigation has been made. The letter of Mrs. McMaster charges her former husband with desertion and non-support and says that in consequence she has been obliged to earn a livelihood as a saleswoman in a New York dry goods store. The letter was addressed to the president and asks him to compel McMaster to promise to support his former wife and two young daughters living with her before being permitted to depart for his post.

Dr. McMaster, it is understood, has remarried.

Inquiries into the complaint are being made by Assistant Secretary of State Pierce.

MISSING BOY RETURNS HOME.

Supposed Kidnapping Mystery Partially Cleared Up.

Chicago, March 27.—Frank Rogers, who disappeared from his home in Evanston, Ill., four years ago with his aunt, Miss Florence Ely, returned home during the day. Young Rogers stated that since leaving Chicago he has been working in Buffalo and New York city. The police and others for a long time worked on the case as a kidnapping mystery. The boy now denies that he has been with his aunt.

When he disappeared from his home in July, 1901, his aunt, Miss Ely, who lived at the house of young Rogers' parents, also disappeared, since which time no trace of either the boy or the woman had been found until he suddenly appeared in Evanston during the day.

The boy had been the pet of his aunt ever since he was a baby. So close was this friendship that Miss Ely could scarcely allow the boy out of her sight. Her affection was returned by young Rogers and in order to break up the attachment between the two Mrs. Rogers decided to send her son away to school and notified Miss Ely of the plan. On July 13, 1901, the boy and his aunt left the Rogers home, presumably for a walk. They did not return and what has become of Miss Ely is still a mystery.

RUSSIANS EXPECT AN ATTACK.

Believe Japs Will Soon Land a Force on Sakhalin Island.

St. Petersburg, March 27.—According to government mail advices brought to the mainland from Sakhalin island and telegraphed from Khabarovsk, the Japanese were expected to land at Korsakovsk within a fortnight, the port being free from ice early in April. The Russians are not in a position to resist, the whole force on the island being less than 2,000 soldiers and prison guards. There are 6,000 convicts in the penal camps, the remainder of the population consisting of 3,000 natives and 6,000 time expired convicts, with women and children, who have settled on the island. The prospects that the convicts may be landed on the mainland in the vicinity of Vladivostok by the Japanese have been considered.

TWO ARE HELD FOR MURDER.

Father and Daughter Accused of Killing New York Woman in Italy.

Naples, March 27.—The court at Caserta has held for trial the servant of the late Miss Catherine McCready of New York and the servant's father on the charge of murdering Miss McCready.

Miss Catherine McCready, who was the daughter of Dennis and Lavina McCready and related by marriage to the late Frederic R. Coudert of New York, was found dead in her villa at Caserta on Feb. 25, the motive being robbery. Miss McCready was an elderly woman and had lived abroad for many years. She was regarded as eccentric and had no relatives or companion living with her. About a week before her death she drew \$4,000 from a bank at Naples, and this money, as well as her jewelry which was in a safe in the house, was taken by the murderer.

He was found to be a Jew, but his identity has not yet been discovered. The bomb thrower in trying to escape met a policeman and shot twice, wounding the officer in the stomach. The prisoner himself was wounded and has been placed in the hospital.

A telephone message was immediately sent to Baron von Nolken at the city hall, informing him of the outrage. Baron von Nolken, accompanied by a police official, immediately took a carriage and started for Praga. When passing the castle where the governor general resides, a man standing on the pavement threw a bomb at the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box and the carriage was smashed.

Injuries Believed to Be Serious.

Baron von Nolken was removed to the city hall and doctors were summoned, who found he had received injuries on the head, neck, arm and leg, which are believed to be serious.

Meanwhile the police official accompanying Baron von Nolken saw the bomb thrower fleeing and pursued and caught up with him, but the criminal proved the stronger and tore himself away. Another policeman fired after him, without result. Half an hour later a man was found dead in Sowiia street, whom the police at first believed to be the bomb thrower, but he proved to be a plain clothes policeman, who was seen pursuing Baron von Nolken's assailant. The police believe that the latter turned

on the policeman and shot him dead.

Baron von Nolken's injuries are serious, but it is thought he will recover.

A girl who was passing the spot when the bomb was thrown was wounded by splinters and had to be taken to the hospital.

According to the theory of the police the revolutionists calculated on Baron von Nolken going to Praga on learning of the explosion of the bomb at the station there, and knew he must pass the castle, that being the only road by which he could reach the only bridge across the Vistula.

The affair caused great excitement. A popular rumor says the revolutionaries adopted this course of informing the police that they have more bombs besides those discovered in the Powonski cemetery Saturday.

Baron von Nolken is very unpopular. He is hated by the masses of the Polish population, who hold him responsible for the sanguinary suppression of the disturbances here at the end of January. He has been here only a year, having come from St. Petersburg, where he was chief of the mounted division of the police.

POLICE ANNOUNCE FAILURE.

Unable to Find Any Clue in Stanford Poisoning Case.

San Francisco, March 27.—It was announced at police headquarters during the day that every known clue in the Stanford case had been run to earth without result. Barring a confession or something "turning up" the police admit that they will never solve the mystery of how in this city strychnine was placed in the mineral water used by Mrs. Stanford. That portion of the mystery connected with her tragic death at Honolulu, the police say, has been solved on the theory that Mrs. Stanford died of natural causes.

Wounded in Fight With Burglar.

Minneapolis, March 27.—Robert Shaver, clerk at the Windsor hotel at 119 University avenue southeast, was seriously wounded in a fight with a burglar in the hotel at 1 o'clock a. m. His hip was cut, he received a wound on one of his hands and a deep gash in the left arm. The burglar escaped.

COMMISSION HELD UP.

Divorced Wife Delays Departure of Consul to Zanzibar.

Washington, March 27.—On complaint of his divorced wife, the commission of Dr. Frederick McMaster of New York, recently appointed consul to Zanzibar, has been held up by the direction of President Roosevelt until an investigation has been made. The letter of Mrs. McMaster charges her former husband with desertion and non-support and says that in consequence she has been obliged to earn a livelihood as a saleswoman in a New York dry goods store. The letter was addressed to the president and asks him to compel McMaster to promise to support his former wife and two young daughters living with her before being permitted to depart for his post.

Dr. McMaster, it is understood, has remarried.

Inquiries into the complaint are being made by Assistant Secretary of State Pierce.

MISSING BOY RETURNS HOME.

Supposed Kidnapping Mystery Partially Cleared Up.

Chicago, March 27.—Frank Rogers, who disappeared from his home in Evanston, Ill., four years ago with his aunt, Miss Florence Ely, returned home during the day. Young Rogers stated that since leaving Chicago he has been working in Buffalo and New York city. The police and others for a long time worked on the case as a kidnapping mystery. The boy now denies that he has been with his aunt.

When he disappeared from his home in July, 1901, his aunt, Miss Ely, who lived at the house of young Rogers' parents, also disappeared, since which time no trace of either the boy or the woman had been found until he suddenly appeared in Evanston during the day.

The boy had been the pet of his aunt ever since he was a baby. So close was this friendship that Miss Ely could scarcely allow the boy out of her sight. Her affection was returned by young Rogers and in order to break up the attachment between the two Mrs. Rogers decided to send her son away to school and notified Miss Ely of the plan. On July 13, 1901, the boy and his aunt left the Rogers home, presumably for a walk. They did not return and what has become of Miss Ely is still a mystery.

RUSSIANS EXPECT AN ATTACK.

Believe Japs Will Soon Land a Force on Sakhalin Island.

St. Petersburg, March 27.—According to government mail advices brought to the mainland from Sakhalin island and telegraphed from Khabarovsk, the Japanese were expected to land at Korsakovsk within a fortnight, the port being free from ice early in April. The Russians are not in a position to resist, the whole force on the island being less than 2,000 soldiers and prison guards. There are 6,000 convicts in the penal camps, the remainder of the population consisting of 3,000 natives and 6,000 time expired convicts, with women and children, who have settled on the island. The prospects that the convicts may be landed on the mainland in the vicinity of Vladivostok by the Japanese have been considered.

TWO ARE HELD FOR MURDER.

Father and Daughter Accused of Killing New York Woman in Italy.

Naples, March 27.—The court at Caserta has held for trial the servant of the late Miss Catherine McCready of New York and the servant's father on the charge of murdering Miss McCready.

Miss Catherine McCready, who was the daughter of Dennis and Lavina McCready and related by marriage to the late Frederic R. Coudert of New York, was found dead in her villa at Caserta on Feb. 25, the motive being robbery. Miss McCready was an elderly woman and had lived abroad for many years. She was regarded as eccentric and had no relatives or companion living with her. About a week before her death she drew \$4,000 from a bank at Naples, and this money, as well as her jewelry which was in a safe in the house, was taken by the murderer.

WOMAN FINALLY SUCCUMBS.

Mrs. Huestis Dies of Gas Poisoning After Long Period of Coma.

New York, March 27.—Mrs. James Huestis of White Plains, N. Y., who for the past sixteen days has been in a state of coma in the Presbyterian hospital as the result of asphyxiation, died during the day.

Mrs. Huestis and her daughter Lucia were taken to the hospital from the residence of friends whom they had been visiting, where they were found one morning overcome by gas. In spite of all that could be done for their relief the daughter died three days ago and the mother succumbed during the day.

The coroner's physician, who performed the autopsy on the body of Mrs. Huestis, reported that he found nothing suspicious, or even remarkable in the case to distinguish it from ordinary cases of gas poisoning. Dr. Oliver of the Presbyterian hospital concurred in this view.

Coroner Scholer differed with Dr. Oliver, saying that it was a remarkable length of time for victims of gas poisoning to remain in a state of coma, although it was not unprecedented.

Indian May Testify on Land Frauds.

Chicago, March 27.—Chief "No Shirt" (Sheesh-Mok-Noot) of the Umatilla Indians in Eastern Oregon arrived here during the day on his way to Washington. It is said the Indian chief has been summoned to Washington in connection with the land fraud investigation now going on in Oregon.

MINISTERS FOR PEACE

MAJORITY OF RUSSIAN RULER'S ADVISERS FAVOR TERMINATING THE WAR.

TO BE HELD AT COPENHAGEN

CONFERENCE MAY OCCUR WHEN ENGLAND'S KING VISITS DANISH CAPITAL.

London, March 27.—A St. Petersburg dispatch to the Reuter Telegram company states that the majority of the council of ministers is agreed on the principle of the opportuneness of initiating steps in the direction of peace, and correspondents in the principal European capitals all report that peace is in the air.

According to arrangements which are still liable to revision, King Edward will leave London on April 6. He will join Queen Alexandra at Cologne and thence their majesties will go to Copenhagen for the celebration of the birthday of King Christian, April 18.

The Associated Press correspondent at Copenhagen telegraphs that so far as known King Edward's visit has no connection with Russo-Japanese pourparlers, but that King Christian strongly favors peace, and should the fowager empress of Russia also come to her father's birthday celebration it will be regarded as a signal of a peace conference at Copenhagen.

It is reported that M. D'Isowsky, the Russian minister to Denmark, left St. Petersburg on Saturday for Copenhagen. According to the Daily Telegraph's correspondent at Kobe, who reports having interviewed the American officers and foreign correspondents captured at Mukden and who have just arrived at Ujin, they all were surprised that no armistice or peace proposals had been made. They confirm previous statements that nobody had the least idea that retreat was imminent until General Kuropatkin's order was suddenly received late on March 9.

JAPAN'S PEACE TERMS

WOULD RESTRICT REBUILDING OF RUSSIAN NAVY FOR MANY YEARS TO COME.

Paris, March 27.—It was stated in diplomatic quarters here during the day that among the conditions of peace which Japan might ask would be that Russia give a pledge to build no more warships for a term of years. A diplomatic official said that such a condition would be the most effective means of assuring Japan against Russia's carrying out her cherished project of naval rearmament for the renewal of hostilities under better conditions than those at present existing.

It is well known that Russia contemplates a huge plan of naval rehabilitation. Admiral Donbasoff, the head of the technical board of the admiralty; Captain Clado, formerly chief tactical officer under Vice Admiral Rojestvensky, and other Russian naval authorities recently have taken the position that peace was desirable until a naval reconstruction could be completed. This appears to have stimulated Japan's diplomats to consider means of avoiding a peace that would be equivalent to no more than a truce during which Russia would have time to forge an effective weapon, and therefore the intimation is now given that limitation of Russian naval armament may figure as a means of ensuring a prolonged peace in the Orient.

Concerning the recent preliminary approaches toward peace, it is now accepted in the highest diplomatic quarters that these preliminary negotiations did not occur here, although Paris may have been the channel through which the results were transmitted to St. Petersburg and Tokio. However, it is noticeable that there has not been the slightest reference in French newspapers to the peace movement having taken tangible form here or elsewhere, except in continued academic discussion of the peace propaganda and a few vague St. Petersburg dispatches showing that peace is in the air.

PRISONERS FROM MUKDEN.

First Batch of Captured Russians Arrives at Tokio.

Tokio, March 27.—The first of the Mukden prisoners arrived at Tokio during the day en route to the Narashiki barracks. They were transferred at the Omori station, avoiding the city. There were no crowds and consequently there was no demonstra-

tion. The prisoners are poorly clad. The business men's association is arranging for a monster celebration of the capture of Mukden for April 3.

Railway Restored.

Tokio, March 27.—The railway between Mukden and Kalyuan has been restored and traffic resumed. The railway bridge across the Hun river has not yet been thoroughly repaired and traffic is still interrupted there.

OYAMA PRAISES HIS TROOPS.

Says the Soldiers of Japan Have Fulfilled Every Hope.

Yinkow, via Tientsin, March 27.—Field Marshal Marquis Oyama during the day gave his first interview since coming into the field. He refused to discuss the probability of peace. "I am only a soldier," he said, "not a politician. The Japanese government will arrange terms of peace when the time comes. We were forced to fight this war in the interests of international peace and for the safety of our country. Personally, I have a high regard for Russians. They are soldiers. The officers and men are brave and able and have fought well. During the war between China and Japan I was a commander of the army which captured Port Arthur. With a division and a half of troops we took the city in five hours. The result this time shows the wonderful difference between the Russians and the Chinese, with whom we had previous experience. But our army, both soldiers and officers, performed their duty as Japan knew they would. I was minister of war for Japan for sixteen years, during which time conscription laws were passed. I have closely watched the making of the Japanese army, which has proved what I say, that the officers and the men have fulfilled every hope, as I believe they would in the end days, when the Japanese army was composed of the Samurai, professional fighting men. The modern army was drafted from all classes, yet all our hopes have been fully realized by the work this army has done in actual war."

Field Marshal Oyama declined to discuss the future movements or plans of the Japanese army. He intimated that he was ready to continue the war as long as necessary.

Despite the reports to the contrary, Field Marshal Oyama's health is excellent. With his staff he is comfortably quartered in fine Chinese houses, placed at his disposal by the Chinese viceroy.

VERY SIGNIFICANT FEATURE.

Merchants and Commercial Men Join Russian Liberals.

St. Petersburg, March 27.—A very significant and important feature in connection with the political situation is the fact that the disaster and ruin with which trade and industry are threatened is forcing the merchant and commercial classes of the big cities into politics. Heretofore, as a matter of business, they have carefully refrained from meddling in the Liberal movement, but the situation is now so serious that they feel compelled to change their attitude and everywhere they are pronouncing in favor of the Liberal demands for the cessation of the war and for a constitution. M. Morosoff, the Moscow millionaire, who is known as the Russian cotton king, realizing the power of this action, has called a private meeting of leading men in the industrial life of Russia to make representations to the government. Considering the important part played by the bourgeois in revolutions in other countries, the "intellectuals" regard the active support of the merchant class as the greatest victory they can achieve in the struggle they are waging. The peasant movement in the south and west continues to spread. There has been a renewal of the burning and destruction of property in the Chirniyoff government, the peasants attacking especially the property of M. Tereschenko, a rich sugar refiner, who has 100,000 acres planted to seed. Several landlords have been murdered.

The peasants in other sections have taken the position that they had the right of cutting wood before emancipation and are offering resistance to the police.

OMINOUS QUIET PREVAILS.

Complete Inactivity Reported Along the Whole Russian Front.

Gunshu Pass, March 27.—Everywhere along the front there is complete and ominous quiet. A nurse arriving from Mukden states that the reports of Japanese ill treatment of Russian sick and wounded after the evacuation of Mukden are entirely unfounded. The Japanese treated all who fell into their hands in the most kindly manner and gave the nurses permission to return to the Russian army, saying there were no women of that avocation with the advanced columns. They provided the nurses with credentials, indicated the roads by which they might travel and warned them that they might be under fire west of the railway.

TWO BOMBS THROWN

ONE OF THEM BADLY INJURES

THE TITLED CHIEF OF THE WARSAW POLICE.

RESULT OF A CONSPIRACY

OFFICIAL LURED FROM HOME BY AN EXPLOSION AT A POLICE STATION.

Warsaw, March 27.—A bomb was thrown into the carriage of Baron von Nolken, chief of police of Warsaw, at 8 o'clock in the evening. It was reported that the baron was severely wounded.

According to latest information, the attack on Baron Nolken was the result of an elaborate conspiracy of the revolutionary party. Shortly before 8 o'clock at night an elegantly dressed man went to the police station at Praga, a large suburb of Warsaw on the Vistula, and threw a bomb into a room of the station where the men assembled before going on duty. Six policemen were wounded and all the furniture as well as one wall was destroyed. The man started to run away, but was caught by the captain of the station. He was found to be a Jew, but his identity has not yet been discovered. The bomb thrower in trying to escape met a policeman and shot twice, wounding the officer in the stomach. The prisoner himself was wounded and has been placed in the hospital.

A telephone message was immediately sent to Baron von Nolken at the city hall, informing him of the outrage. Baron von Nolken, accompanied by a police official, immediately took a carriage and started for Praga. When passing the castle where the governor general resides, a man standing on the pavement threw a bomb at the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box and the carriage was smashed.

Injuries Believed to Be Serious.

Baron von Nolken was removed to the city hall and doctors were summoned, who found he had received injuries on the head, neck, arm and leg, which are believed to be serious.

Meanwhile the police official accompanying Baron von Nolken saw the bomb thrower fleeing and pursued and caught up with him, but the criminal proved the stronger and tore himself away. Another policeman fired after him, without result. Half an hour later a man was found dead in Sowiak street, whom the police at first believed to be the bomb thrower, but he proved to be a plain clothes policeman, who was seen pursuing Baron von Nolken's assailant. The police believe that the latter turned

on the policeman and shot him dead.

Baron von Nolken's injuries are serious, but it is thought he will recover.

A girl who was passing the spot when the bomb was thrown was wounded by splinters and had to be taken to the hospital.

According to the theory of the police the revolutionists calculated on Baron von Nolken going to Praga on learning of the explosion of the bomb at the station there, and knew he must pass the castle, that being the only road by which he could reach the only bridge across the Vistula.

The affair caused great excitement. A popular rumor says the revolutionaries adopted this course of informing the police that they have more bombs besides those discovered in the Powonski cemetery Saturday.

Baron von Nolken is very unpopular. He is hated by the masses of the Polish population, who hold him responsible for the sanguinary suppression of the disturbances here at the end of January. He has been here only a year, having come from St. Petersburg, where he was chief of the mounted division of the police.

Wounded in Fight With Burglar.

Minneapolis, March 27.—Robert Shaver, clerk at the Windom hotel at 119 University avenue southeast, was seriously wounded in a fight with a burglar in the hotel at 1 o'clock a. m. His left arm was cut, he received a wound on one of his hands and a deep gash in the left arm. The burglar escaped.

COMMISSION HELD UP.

Divorced Wife Delays Departure of Consul to Zanzibar.

Washington, March 27.—On complaint of his divorced wife, the commission of Dr. Frederick McMaster of New York, recently appointed consul to Zanzibar, has been held up by the direction of President Roosevelt until an investigation has been made. The letter of Mrs. McMaster charges her former husband with desertion and non-support and says that in consequence she has been obliged to earn a livelihood as a saleswoman in a New York dry goods store. The letter was addressed to the president and asks him to compel McMaster to promise to support his former wife and two young daughters living with her before being permitted to depart for his post.

Dr. McMaster, it is understood, has remarried.

Inquiries into the complaint are being made by Assistant Secretary of State Pierce.

MISSING BOY RETURNS HOME.

Supposed Kidnapping Mystery Partially Cleared Up.

Chicago, March 27.—Frank Rogers, who disappeared from his home in Evanston, Ill., four years ago with his aunt, Miss Florence Ely, returned home during the day. Young Rogers stated that since leaving Chicago he has been working in Buffalo and New York city. The police and others for a long time worked on the case as a kidnapping mystery. The boy now denies that he has been with his aunt.

When he disappeared from his home in July, 1901, his aunt, Miss Ely, who lived at the house of young Rogers' parents, also disappeared, since which time no trace of either the boy or the woman had been found until he suddenly appeared in Evanston during the day.

The boy had been the pet of his aunt ever since he was a baby. So close was this friendship that Miss Ely could scarcely allow the boy out of her sight. TWO ARE HELD FOR MURDER.

Father and Daughter Accused of Killing New York Woman in Italy.

Naples, March 27.—The court at Caserta has held for trial the servant of the late Miss Catherine McCready of New York and the servant's father on the charge of murdering Miss McCready.

Miss Catherine McCready, who was the daughter of Dennis and Lavina McCready and related by marriage to the late Frederic R. Coudert of New York, was found dead in her villa at Caserta on Feb. 25, the motive being robbery. Miss McCready was an elderly woman and had lived abroad for many years. MUSIC AND DRAMA.

PAUL GILMORE TONIGHT.

One of the very interesting events theatrically of the season will be the performance of "The Mummy and the Humming Bird" by Paul Gilmore and his excellent company at the Brainerd opera house tonight. The prices are \$1, 75c, 50c and 25 cents.

"THE GAY MATINEE GIRL."

There is no entertainment so pleasant as where there is so skillfully united the elements of comedy, music and beauty. This is the case with "The Gay Matinee Girl," which comes to the Brainerd opera house, Saturday evening, April 1. To begin with "The Gay Matinee Girl" is a clever conception originated by the playwright. Starting with this basis, the management has provided the production with new scenery. Again the company which includes such artists as Marie Dale, Monroe and Hart, Fred E. Hawley and others, has been selected with particular attention to the requirements of the different roles. The music is by the best composers. Much attention has been given to the ensembles and marches and it reflects no little credit on Mr. E. M. Crane, who devised them all.

TELLS OF VARIOUS SUCCESSSES

Paul Gilmore, the Charming Actor Relates Story of the Ups and Downs of Theatrical Life

During a chat at the Ransford today with Paul Gilmore, who with his excellent company will present the "Mummy and the Humming Bird" tonight at the Brainerd opera house, when asked to tell something of his career from the time he became a leading man, he said, "My first leading part was with 'In Old Kentucky,' its first season on tour. From that time I was given the leading parts in Charles Frohman's road company playing 'The Wife,' 'Charity Ball,' etc. I hope I have some friends here who recall me as having played in those beautiful plays some seven years ago.

"It was at the end of this very delightful season that the craze for the romantic drama began. Of course such roles as D'Hurtagnan, Don Cesar and Claude Barault would attract any actor, so having by this time gotten the starring bee in my bonnet, I put myself out in a very handsome production of the 'Three Musketeers.' I loved that play, and I had a delightful, profitable season. The next season I starred in 'Under the Red Robe,' another beautiful romantic play.

"After my success in these parts, Henrietta Crossman, then playing 'Mistress Nell,' offered to feature me in the part of King Charles for her New York run.

"I think that was the most picturesque part I ever had, and I was very fond of it. While playing that part in New York, Mr. Jules Murry, one of the best known theatrical managers there, saw me and made me an offer to star me for a number of years. I was only too happy to accept the offer he made me, and two years ago, my first season with Mr. Murry, we secured for my vehicle that charming comedy, 'The Tyranny of Tears.' I was delighted at the success I attained with the 'Mummy and the Humming Bird' last season, and this decided our continuing it another year. It was one of the greatest comedy successes New York and London have had in a decade. It is a true to life society play.

DON'T BE SATISFIED

Why Be Content With Relief When a Brainerd Woman Shows You the Cure.

Don't be satisfied with relief; brief freedom from backache. Reach the root of the trouble. Cure the cause and backache disappears for good. It can be done. Doan's Kidney Pills make lasting cures. Experiences of Brainerd people prove this. Here's one Brainerd case of it:

Mrs. S. Brain, of 610 S. 10th St., Brainerd, Minn., says: "I could not do otherwise than endorse Doan's Kidney Pills, and time and again I have recommended them to persons suffering from kidney trouble. I learned the value of this remedy through experience. When I first got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and the kidney secretions were irregular and distressing. From both these causes my rest was broken at night and in the morning I was usually languid and all tired out. Doan's Kidney Pills made a great change in my condition and after continuing the treatment I was so vastly improved that I felt warranted in recommending this remedy through the local papers. I have never changed my mind about Doan's Kidney Pills and have also found that Doan's Ointment is unequalled for itching and bleeding hemorrhoids. Both these preparations should be known to every sufferer."

Piles can be cured by internal treatment. To get at the cause—that is the secret, and that is why Dr. Perrin's Pile Specific is so universally successful in its results. It increases the flow of digestive juices in the stomach—accelerates the action of the liver. With congestion of the liver removed and constipation relieved, the two chief and distinct causes of piles are reached and conquered.

Dr. Perrin's Pile Specific

The Internal Remedy

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

Certain in its results, this remedy will cure the most obstinate case of Piles.

Piles can be cured by internal treatment. To get at the cause—that is the secret, and that is why Dr. Perrin's Pile Specific is so universally successful in its results. It increases the flow of digestive juices in the stomach—accelerates the action of the liver. With congestion of the liver removed and constipation relieved, the two chief and distinct causes of piles are reached and conquered.

Dr. Perrin's Pile Specific

The Internal Remedy

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

Certain in its results, this remedy will cure the most obstinate case of Piles.

MUSIC AND DRAMA.

PAUL GILMORE TONIGHT.

One of the very interesting events theatrically, of the season will be the performance of "The Mummy and the Humming Bird" by Paul Gilmore and his excellent company at the Brainerd opera house tonight. The prices are \$1, 75c, 50c and 25c.

"THE GAY MATINEE GIRL."

There is no entertainment so pleasant as where there is so skillfully united the elements of comedy, music and beauty. This is the case with "The Gay Matinee Girl," which comes to the Brainerd opera house, Saturday evening, April 1. To begin with "The Gay Matinee Girl" is a clever conception originated by the playwright. Starting with this basis, the management has provided the production with new scenery. Again the company which includes such artists as Marie Dale, Monroe and Hart, Fred E. Hawley and others, has been selected with particular attention to the requirements of the different roles. The music is by the best composers. Much attention has been given to the ensembles and marches and it reflects no little credit on Mr. E. M. Crane, who devised them all.

TELLS OF VARIOUS SUCCESSES

Paul Gilmore, the Charming Actor Relates Story of the Ups and Downs of Theatrical Life

During a chat at the Ransford today with Paul Gilmore, who with his excellent company will present the "Mummy and the Humming Bird" tonight at the Brainerd opera house, when asked to tell something of his career from the time he became a leading man, he said, "My first leading part was with 'In Old Kentucky,' its first season on tour. From that time I was given the leading parts in Charles Frohman's road company playing 'The Wife,' 'Charity Ball,' etc. I hope I have some friends here who recall me as having played in those beautiful plays some seven years ago.

"It was at the end of this very delightful season that the craze for the romantic drama began. Of course such roles as D'Hrtagnan, Don Cesar and Claude Barault would attract any actor, so having by this time gotten the starring bee in my bonnet, I put myself out in a very handsome production of the 'Three Musketeers.' I loved that play, and I had a delightful, profitable season. The next season I starred in 'Under the Red Robe,' another beautiful romantic play.

"After my success in these parts, Henrietta Crossman, then playing 'Miss Nell,' offered to feature me in the part of King Charles for her New York run.

"I think that was the most picturesque part I ever had, and I was very fond of it. While playing that part in New York, Mr. Jules Murry, one of the best known theatrical managers there, saw me and made me an offer to star me for a number of years. I was only too happy to accept the offer he made me, and two years ago, my first season with Mr. Murry, we secured for my vehicle that charming comedy, 'The Tyranny of Tears.' I was delighted at the success I attained with the 'Mummy and the Humming Bird' last season, and this decided our continuing it another year.

It was one of the greatest comedy successes New York and London have had in a decade. It is a true to life society play.

DON'T BE SATISFIED

Why Be Content With Relief When a Brainerd Woman Shows You the Cure.

Don't be satisfied with relief; brief freedom from backache. Reach the root of the trouble. Cure the cause and backache disappears for good. It can be done. Doan's Kidney Pills make lasting cures. Experiences of Brainerd people prove this. Here's one Brainerd case of it:

Mrs. S. Brain, of 610 S. 10th St., Brainerd, Minn., says: "I could not do other-wise than endorse Doan's Kidney Pills, and time and again I have recommended them to persons suffering from kidney trouble. I learned the value of this remedy through experience. When I first got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and the kidney secretions were irregular and distressing. From both these causes my rest was broken at night and in the morning I was usually languid and all tired out. Doan's Kidney Pills made a great change in my condition and after continuing the treatment I was so vastly improved that I felt warranted in recommending this remedy through the local papers. I have never changed my mind about Doan's Kidney Pills and have also found that Doan's Ointment is unequalled for itching and bleeding hemorrhoids. Both these preparations should be known to every sufferer."

NORTHERN WILL BE MODEL LEAGUE

President Kent Discusses League Matters With Winnipeg Free Press Reporter

WILL SEE SOME FAST BALL

Considers St. Cloud-Brainerd Combination a Strong One and Will be Winner

President Kent has some interesting things to say regarding the prospects for the Northern League this summer and discussing the matter with Winnipeg newspaper man said among other things:

"Everything is moving along nicely in our new circuit. The St. Cloud Brainerd people have a strong organization, and with the two cities to draw from it is sure to be a money-making proposition. Crookston has one of the strongest organizations of any of the cities in the league. I have secured as secretary a very competent man, in the person of Mr. John Selby, a rising young lawyer, with a technical knowledge of baseball affairs, and a man of recognized ability. He has already opened league offices in the First National bank block in Grand Forks, and is busy getting his records in shape.

"I expect the schedule committee, of which your Mr. Lamb is a member, will meet in Grand Forks inside of the next ten days and formulate a playing schedule for the season of 1905. It will be the object and aim of the league management this year to give the people a first-class article of ball. There will be no rowdiness of any sort permitted with my knowledge or consent. Financially there is nothing in baseball for me, and what interest I have taken in the game is purely from a sportsman's standpoint.

"Every manager in this league has been notified that profanity and intemperance will not be permitted among ball players this year, and we propose to stamp out everything objectionable which was a curse to the profession last year.

"This year we will have the pick of the college and fast professional ball players, young men who are anxious to make a record and get into the big leagues. You see, it is just like this. No matter how good a player may be a phenomenon even cannot get into a league unless they have a class. Therefore, we will have many men playing ball in our league this year merely for the purpose of securing a record and getting into the bigger leagues next season. Therefore, as I have suggested I feel confident that we are not only going to see cleaner and more satisfactory baseball, but we will see faster baseball than we did last year."

Fine plumbing supplies at Sherlund's CORY CAREY HOUSE BURNED

House on Water Street Caught Fire at an Early Hour Sunday Morning and Was Entirely Consumed

The west house of the two that occupy a prominent point on the hill on Water street south of the base ball park, occupied as a house of ill fame, was destroyed by fire yesterday morning at an early hour. Fire was discovered about 4 o'clock and before the department could do anything the entire building and most of the contents were destroyed. The house and furniture were owned by Cora Carey who is not a resident of the city at present. The house was being conducted by Mable Ward.

The house was insured for \$2500 and the furniture for \$2500, which, it is thought, will fully cover the loss. It was reported that some money and jewelry belong to some of the women were burned.

WILL TRACE RANGE WEST

Explorations to Be Carried on in Connection With the Cuyuna Range Here

TO BE TRACED FROM VERMILLION

Where Several Crews Will Be Sent to Work by Inter-ested Parties.

The chartering of lake tonnage for the season of navigation has continued this week, and there are supposed to be under charter and to be carried by owners a total of not less than 25,000,000 gross tons, says the Duluth News-Tribune.

The season shipment will be in the neighborhood of 5,000,000 tons a month at the full tide of the year.

Some exploration will be carried on in township 58, range 7, sections 8 and 9, for iron, and five drills are now being taken in from points on the Duluth & Iron Range road. There are numerous ore signs in the district, and many explorers, for years, have claimed an iron-bearing formation in that vicinity. But the probability is that it is nothing more than a wash of ore, or glacial drift from the Mesaba and Vermillion. There is very little chance of finding anything of value in that part of the state. There is sure to be exploration on what has been known as the western Vermillion range, and several crews will be sent there as soon as the weather will permit.

Attempts will be made to trace the range west of the Mississippi river, and to connect it with the work that is under way near Deerwood and Brainerd, Crow Wing county. It will be a very difficult matter to do this, and the opinion holds among those who have watched this new region most carefully that there can be no correlation between the Mesaba and the Deerwood range.

HORSE KILLED IN RUNAWAY

Team Belonging to Graham Bros. being Used by Fifth Street Meat Market.

Creates Sensation on Streets.

One of the most sensational runaways in some time was the one on Saturday night about 6:30 o'clock when a team of horses owned by Graham Bros., being used by the Fifth street meat market, took a dash down front street and before they were stopped ran into a horse owned by Chief Simmons and killed it almost instantly.

The team of horses was standing in front of the Fifth street market when it started to run and they ran as far as Front and turned east. A young son of Chief Simmons and another young lad were driving west on Front in a single rig and saw the danger ahead, but could not get out of the way before the team struck the horse and the pole of the buggy was thrust almost through the animal. Dr. McDonald, the veterinary, was called and he shot the horse.

One of the mysterious things about the runaway was the fact that neither of the boys in the buggy were injured, notwithstanding they were thrown into the air like feathers. The buggy to which was attached the horse of Chief Simmons was demolished, as was the rig belonging to the butcher. A large crowd gathered and it is the opinion of those who saw the smash up that it was one of the most sensational ever seen in the city.

Nervous Headache

The Cause of Much Suffering to Women is Permanently Cured When the System is Built up by

DR. A. W. CHASE'S NERVE PILLS.

When the head aches hard and throbs; when the neck and eyes grow stiff; when the face flushes or grows deadly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, trembly, shaky and utterly worthless for days, it is a certain indication that the nervous system is shattered—that resistance power is gone—that you need a medicine that will rebuild and re-supply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. Chase's Nerve Pills, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. John Fall of Fourth St., Toronto, O., Says:

"I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to play me out and leave me weak and nervous, the pain being so severe. Russian Massage Baths By a Genuine Russian. On Genuine Russian Plans

Not a dry Massage, but a moist Massage, where medicine is applied and thoroughly worked into the skin, muscles and blood for the treatment of all kinds of rheumatism; chronic muscular sciatic or inflammatory by the use of Fatty Medicated Greases thoroughly worked into the skin. Will also take away all surplus fat, enlarged stomachs, removes pimples from face and body all by his Massage Treatment. No medicine used only externally.

Rooms have been fixed up in the latest and best equipment on the 2nd floor of the Columbian block; one for ladies' only and one for men. Remember the baths given by me are as good and given on as scientific a plan as at the most noted bath springs in either this or foreign countries by the use of chemicals in the water. You get the same results as though you were at the springs direct.

The German language is spoken fluently and can speak English enough to make myself understood to all.

Will be ready to give Baths Wednesday afternoon, will be open evenings.

My Prices are Reasonable.

Yours for Health and Strength.

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

We want you to know about Liquezone and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquezone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquezone.

We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter. There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma Abscess—Anemia Bronchitis Blood Poison Bright's Disease Bowel Troubles Coughs—Colds Consumption Colic—Cramp Constipation Catarrh—Cancer Dysentery—Diarrhea Dandruff—Dropsy Dyspepsia Eczema—Erysipelas Hay Fever—Influenza Kidney Diseases La Grippe Leucorrhea Liver Troubles Malaria—Neuralgia Many Heart Troubles Piles—Pneumonia Pleurisy—Quinsy Rheumatism Scrofula—Syphilis Skin Diseases Stomach Troubles Throat Troubles Tuberculosis

Fever—Gall Stones Gout—Gout Gonorrhea—Gleet Hemorrhoids Women's Diseases All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood. In nervous debility Liquezone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever. Liquezone costs 50c. and \$1.

CUT OUT THIS COUPON for this offer may not appear again. Fill out the blanks and mail it to The Liquezone Company, 458-464 Wabash Ave., Chicago.

My disease is I have never tried Liquezone, but if you will supply me a 50c. bottle free I will take it.

4 ST V Give full address—write plainly.

Any physician or hospital not yet using Liquezone will be gladly supplied for a test.

NORTHERN WILL BE MODEL LEAGUE

President Kent Discusses League
Matters With Winnipeg Free
Press Reporter

WILL SEE SOME FAST BALL

Considers St. Cloud-Brainerd Com-
bination a Strong One and
Will be Winner

President Kent has some interesting
things to say regarding the prospects
for the Northern League this summer
and discussing the matter with Win-
nipeg newspaper man said among other
things:

"Everything is moving along nicely in
our new circuit. The St. Cloud Brainerd
people have a strong organization,
and with the two cities to draw from it
is sure to be a money-making propo-
sition. Crookston has one of the strong-
est organizations of any of the cities in
the league. I have secured as secretary
a very competent man, in the person of
Mr. John Selby, a rising young lawyer,
with a technical knowledge of baseball
affairs, and a man of recognized ability.
He has already opened league offices in
the First National bank block in Grand
Forks, and is busy getting his records
in shape.

"I expect the schedule committee, of
which your Mr. Lamb is a member, will
meet in Grand Forks inside of the next
ten days and formulate a playing sched-
ule for the season of 1905. It will be the
object and aim of the league manage-
ment this year to give the people a first-
class article of ball. There will be no
rowdism of any sort permitted with
my knowledge or consent. Financially
there is nothing in baseball for me, and
what interest I have taken in the game
is purely from a sportsman's standpoint.

"Every manager in this league has
been notified that profanity and intem-
perence will not be permitted among
ball players this year, and we propose
to stamp out everything objectionable
which was a curse to the profession last
year.

"This year we will have the pick of
the college and fast professional ball
players, young men who are anxious to
make a record and get into the big
leagues. You see, it is just like this.
No matter how good a player may be a
phenomenon even cannot get into a
league unless they have a class. There-
fore, we will have many men playing
ball in our league this year merely for
the purpose of securing a record and
getting into the bigger leagues next
season. Therefore, as I have suggested
I feel confident that we are not only go-
ing to see cleaner and more satisfactory
baseball, but we will see faster baseball
than we did last year."

CORY CAREY HOUSE BURNED

House on Water Street Caught Fire at an
Early Hour Sunday Morning and
Was Entirely Consumed

The west house of the two that occupy
a prominent point on the hill on Water
street south of the base ball park, oc-
cupied as a house of ill fame, was destroyed
by fire yesterday morning at an early
hour. Fire was discovered about 4
o'clock and before the department could
do anything the entire building and
most of the contents were destroyed.
The house and furniture were owned by
Cora Carey who is not a resident of the
city at present. The house was being
conducted by Mable Ward.

The house was insured for \$2500 and
the furniture for \$2500, which, it is
thought, will fully cover the loss. It
was reported that some money and jew-
elry belong to some of the women were
burned.

WILL TRACE RANGE WEST

Explorations to Be Carried on in
Connection With the Cuyuna
Range Here

TO BE TRACED FROM VERMILLION

Where Several Crews Will Be
Sent to Work by Inter-
ested Parties.

The chartering of lake tonnage for the
season of navigation has continued this
week, and there are supposed to be un-
der charter and to be carried by owners
a total of not less than 25,000,000 gross
tons, says the Duluth News-Tribune.

The season shipment will be in the
neighborhood of 5,000,000 tons a month
at the full tide of the year.

Some exploration will be carried on in
township 58, range 7, sections 8 and 9,
for iron, and five drills are now being
taken in from points on the Duluth &
Iron Range road. There are numerous
ore signs in the district, and many ex-
plorers, for years, have claimed an iron-
bearing formation in that vicinity. But
the probability is that it is nothing more
than a wash of ore, or glacial drift from
the Mesaba and Vermillion. There is
very little chance of finding anything
of value in that part of the state.

There is sure to be exploration on what
has been known as the western Vermil-
lion range, and several crews will be
sent there as soon as the weather will
permit.

Attempts will be made to trace the
range west of the Mississippi river, and
to connect it with the work that is under
way near Deerwood and Brainerd, Crow
Wing county. It will be a very difficult
matter to do this, and the opinion holds
among those who have watched this new
region most carefully that there can be
no correlation between the Mesaba and
the Deerwood range.

HORSE KILLED IN RUNAWAY

Team Belonging to Graham Bros. being
Used by Fifth Street Meat Market.

Creates Sensation on Streets.

One of the most sensational runaways
in some time was the one on Saturday
night about 6:30 o'clock when a team of
horses owned by Graham Bros., being
used by the Fifth street meat market,
took a dash down front street and before
they were stopped ran into a horse own-
ed by Chief Simmons and killed it al-
most instantly.

The team of horses was standing in
front of the Fifth street market when it
started to run and they ran as far as
Front and turned east. A young son of
Chief Simmons and another young lad
were driving west on Front in a single
rig and saw the danger ahead, but could
not get out of the way before the team
struck the horse and the pole of the
buggy was thrust almost through the
animal. Dr. McDonald, the veterinary,
was called and he shot the horse.

One of the mysterious things about
the runaway was the fact that neither
of the boys in the buggy were injured,
notwithstanding they were thrown into
the air like feathers. The buggy to
which was attached the horse of Chief
Simmons was demolished, as was the rig
belonging to the butcher. A large crowd
gathered and it is the opinion of those
who saw the smash up that it was one
of the most sensational ever seen in the
city.

Nervous Headache

The Cause of Much Suffering to
Women is Permanently Cured
When the System is Built
up by

DR. A. W. CHASE'S NERVE PILLS.

When the head aches and throbs;
when the neck and eyes grow stiff, the
face flushes or grows deadly white;
when any excitement or over effort
brings on an attack of nervous headache
so severe that it leaves you weak, trem-
bly, shaky and utterly worthless for
days, it is a certain indication that the
nervous system is shattered—that resist-
ive power is gone—that you need a
medicine that will rebuild and re-sup-
ply the lost nerve force, that will so
strengthen you that you can resist and
overcome these terrible seizures. Such
a medicine is Dr. A. W. Chase's Nerve
Pills, a medicine that does not relieve
but goes to the root of the trouble and
positively cures.

Mrs. John Fall of Fourth St., Tor-
onto, O., Says:

"I like Dr. A. W. Chase's Nerve Pills
because they cured my nervous sick
headaches—these headaches used to
play me out and leave me weak and
nervous, the pain being so severe. My
eyes used to get stiff and sore during
the attack and the neck so stiff I could

result I feel steady in nerves, physically
strong and vigorous and in every way
sound and well. This makes me feel I
can't speak too highly of the medicine.

"Every manager in this league has been notified that profanity and intemperance will not be permitted among ball players this year, and we propose to stamp out everything objectionable which was a curse to the profession last year.

"This year we will have the pick of the college and fast professional ball players, young men who are anxious to make a record and get into the big leagues. You see, it is just like this. No matter how good a player may be a phenomenon even cannot get into a league unless they have a class. Therefore, we will have many men playing ball in our league this year merely for the purpose of securing a record and getting into the bigger leagues next season. Therefore, as I have suggested I feel confident that we are not only going to see cleaner and more satisfactory baseball, but we will see faster baseball than we did last year."

CORY CAREY HOUSE BURNED

House on Water Street Caught Fire at an
Early Hour Sunday Morning and
Was Entirely Consumed

The west house of the two that occupy a prominent point on the hill on Water street south of the base ball park, occupied as a house of ill fame, was destroyed by fire yesterday morning at an early hour. Fire was discovered about 4 o'clock and before the department could do anything the entire building and most of the contents were destroyed. The house and furniture were owned by Cora Carey who is not a resident of the city at present. The house was being conducted by Mable Ward.

The house was insured for \$2500 and the furniture for \$2500, which, it is thought, will fully cover the loss. It was reported that some money and jewelry belong to some of the women were burned.

WILL TRACE RANGE WEST

Explorations to Be Carried on in
Connection With the Cuyuna
Range Here

TO BE TRACED FROM VERMILLION

Where Several Crews Will Be
Sent to Work by Inter-
ested Parties.

The chartering of lake tonnage for the season of navigation has continued this week, and there are supposed to be under charter and to be carried by owners a total of not less than 25,000,000 gross tons, says the Duluth News-Tribune.

The season shipment will be in the neighborhood of 5,000,000 tons a month at the full tide of the year.

Some exploration will be carried on in township 58, range 7, sections 8 and 9, for iron, and five drills are now being taken in from points on the Duluth & Iron Range road. There are numerous ore signs in the district, and many explorers, for years, have claimed an iron-bearing formation in that vicinity. But the probability is that it is nothing more than a wash of ore, or glacial drift from the Mesaba and Vermilion. There is very little chance of finding anything of value in that part of the state. There is sure to be exploration on what has been known as the western Vermilion range, and several crews will be sent there as soon as the weather will permit.

Attempts will be made to trace the range west of the Mississippi river, and to connect it with the work that is under way near Deerwood and Brainerd, Crow Wing county. It will be a very difficult matter to do this, and the opinion holds among those who have watched this new region most carefully that there can be no correlation between the Mesaba and the Deerwood range.

HORSE KILLED IN RUNAWAY

Team Belonging to Graham Bros. being
Used by Fifth Street Meat Market.

Creates Sensation on Streets.

One of the most sensational runaways in some time was the one on Saturday night about 6:30 o'clock when a team of horses owned by Graham Bros., being used by the Fifth street meat market, took a dash down front street and before they were stopped ran into a horse owned by Chief Simmons and killed it almost instantly.

The team of horses was standing in front of the Fifth street market when it started to run and they ran as far as Front and turned east. A young son of Chief Simmons and another young lad were driving west on Front in a single rig and saw the danger ahead, but could not get out of the way before the team struck the horse and the pole of the buggy was thrust almost through the animal. Dr. McDonald, the veterinarian, was called and he shot the horse.

One of the mysterious things about the runaway was the fact that neither of the boys in the buggy were injured, notwithstanding they were thrown into the air like feathers. The buggy to which was attached the horse of Chief Simmons was demolished, as was the rig belonging to the butcher. A large crowd gathered and it is the opinion of those who saw the smash up that it was one of the most sensational ever seen in the city.

Nervous Headache

The Cause of Much Suffering for
Women is Permanently Cured
When the System is Built
up by

DR. A. W. CHASE'S NERVE PILLS.

When the head aches hard and throbs; when the neck and eyes grow stiff, the face flushes or grows deadly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, trembly, shaky and utterly worthless for days, it is a certain indication that the nervous system is shattered—that resistive power is gone—that you need a medicine that will rebuild and re-supply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. Chase's Nerve Pills, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. John Fall of Fourth St., Toronto, O., Says:

"I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to play me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, however, proved to be just what I needed and cured the attacks in a hurry. As a result I feel steady in nerves, physically strong and vigorous and in every way sound and well. This makes me feel I can't speak too highly of the medicine." 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

We want you to know about Liquezone and the product itself can tell you more than we. So we ask you to tell us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquezone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquezone.

We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Do You Need Bracing Up?

No other tonic in the world is like Paine's Celery Compound; no other remedy takes so simple and scientific a way to perform its wonders. Paine's Celery Compound acts directly upon the nerves, feeding them Nature's nerve food—celery—filling them with new vitality. Through the nerves it acts upon the blood, purifying it, strengthening it, making it pure and strong and red and healthy. No other remedy purifies so gently and so quickly.

Paine's Celery Compound is the one known prescription that purifies without purging or weakening the system in any way.

If you feel "run down," "used up," nervous, tired—in other words, if you need bracing up, try Paine's Celery Compound.

Learn the full luxury and delight of being always at your best, able to live your life for all that is in it.

Feel the exultant thrill of pure, rich blood and abundant Nerve Force, made by Paine's Celery Compound.

Paine's Celery Compound gives real Nerve Force, instead of the false activity imparted by mere stimulants. It is the best and quickest nerve tonic.

Tired, weak-nerved, thin-blooded, unhappy men and women get quick, sure, hearty health from this celebrated Nerve Vitalizer and Tonic. It drives away lassitude, gives courage and strength. It makes a rich increase in blood supply. And makes the whole system thrill with hearty health.

Miss Mary Stone, Secretary of the Young People's Christian Temperance Society of Milwaukee, tells her experience after feeling "run down" for months.

We have used Paine's Celery Compound in our family for a number of years and a few months ago when I felt so worn out and run down that I thought I would have to give up my work and take a vacation earlier, mother suggested that I try a couple of bottles of Paine's Celery Compound. A few doses made me feel quite different, my appetite increased, I began to sleep well at night and felt rested in the morning. In a very short time I felt like a different being and am glad to say that your medicine made it possible for me to continue my work uninterrupted. Yours very truly, Miss Mary Stone, 2621 Lisbon Ave., Milwaukee, Wis. Secretary Young People's Christian Temperance Society.

Try Paine's Celery Compound YOURSELF when you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried—when the tired feeling puts its heavy touch upon you.

That is when you need the new Nerve Force, the good blood and fresh vitality that is given by PAINE'S CELERY COMPOUND.

Don't wait. Try Paine's Celery Compound today.

Take just one dose when you go to face the hard part of the day's trials. See how much better you feel.

See how much more easily the trials roll away. Two days' treatment with Paine's Celery Compound will give proof of its marvelous powers.

For 18 years this famous prescription has been the most universally used tonic in the world. It has stood the test of time. Physicians constantly use and prescribe it. No prescription has ever been formulated that equaled it in curative power.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

WOULD DECLINE GIFT

REV. GLADDEN URGES MISSION BOARD TO REJECT ROCKEFELLER'S DONATION.

WOULD NOT BE HONORABLE

MINISTER SAYS IT WOULD NOT BE RIGHT TO TAKE MONEY AND FIGHT DONOR.

Columbus, O., March 27.—Rev. Dr. Washington Gladden, pastor of the First Congregational church of Columbus and moderator of the general council of Congregational churches of the United States, in a sermon delivered here, discussed the gift of \$100,000 made by John D. Rockefeller to the American board of missions. He said:

"The money proffered to our board of missions comes out of a colossal estate, of which the foundations were laid in the most rapacious manner known to modern civilization.

"The United States government is now engaged in a strenuous attempt to ferret out and punish this injustice, and the people of the United States have a tremendous battle on their hands with the corporate greed which has entrenched itself in this stronghold and has learned to use the railways for the oppression and spoliation of the people.

"And now, on the eve of this battle, they are asked to accept a great gift of money from the man who more completely than any other represents the spirit in which they are summoned to fight.

"I hope they are not mean enough to take his money and then turn around and fight him. I hope they are not so faithless to their obligations as to take his money and shut their mouths or become his apologists.

"We do not want his money. To accept it will be to work the contempt of millions of honest men, to reject it will strengthen our church in the affection and respect of millions who are inclined to doubt whether the churches love God more than mammon.

"Our missions will be richer and stronger without it than with it, and we shall lose nothing by our loyalty to the things unseen and eternal."

REFORMS MONETARY SYSTEM.

Decree of Mexican President Goes Into Effect May 1.

Mexico City, March 27.—President Diaz has issued a decree for the reform of the monetary system authorized by congress in December last. The decree establishes the "peso," or silver dollar, at a value of 50 cents gold and the theoretical unit of the Mexican currency is defined to be the dollar or "peso," of 75 centigrammes of gold. An important feature of the decree is a provision for a reserve exchange fund which at first will consist of \$10,000,000 or \$15,000,000 and may be increased.

The original plan did not provide for the immediate establishment of this fund, but it is now deemed wise to start with one simultaneously with the beginning of the new monetary system.

The mint will be closed April 16 to the free coinage of silver and the new monetary system will go into effect May 1.

The publication of the decree gives great satisfaction in business and commercial circles. It assures a stability of currency and insures business men against loss in importing.

KILLS HIS WIFE AND HIMSELF.

Jealous Chicago Man Ends Two Lives With Bullets.

Chicago, March 27.—A. J. Oldfield, proprietor of a machine shop, shot and instantly killed his wife at night and a moment later put a bullet through his own head, falling dead a few feet from his wife's body. The only explanation of the double tragedy was given by their fourteen-year-old daughter, who witnessed the murder and suicide. She said that her father and mother had frequent quarrels and that her father was very jealous.

GREAT LANDSLIDE IN HUNGARY.

Eight Soldiers Killed and Nineteen Others Injured.

Semlin, Hungary, March 27.—A great landslide occurred here during the day. A squadron of soldiers who went to the rescue of a buried woman suffered severely, eight of their number being killed and nineteen injured.

Thought to Be Work of Incendiary.

St. Louis, March 27.—The freight depot of the Anhauser-Busch Brewing association was destroyed by fire during the day, together with seven refrigerators cars, the property of the St. Louis Refrigerating Car company. Total loss, \$125,000; covered by insurance. The loss is the second serious fire in the Bush properties within two months and the police advance an incendiary theory.

Conrad Schaefer Dead.

Denver, March 27.—Conrad Schaefer, president of the American Stock Growers' association, died here during the day, aged fifty-eight. Mr. Schaefer was one of the foremost figures in the stock industry of the United States.

ALL RECORDS BROKEN

ONE HUNDRED AND TWO NEW BILLS INTRODUCED IN THE HOUSE IN ONE DAY.

SENATORS ALSO PUT IN A VERY

BUSY DAY IN PRESENTING NEW LEGISLATION.

St. Paul, March 27.—The house of the Minnesota legislature Saturday shattered all previous legislative records in the matter of introduction of bills. A total of 102 new bills was presented on the last day permitted for the introduction of bills, unless the consent of the governor is first obtained.

Two years ago a total of 63 bills marked the seventieth day of the session. The total number of bills introduced to date is 855. Two years ago, on the corresponding date, there were 908 bills introduced, but while the total is less by 53 than two years ago, no such rush two years ago marked the proceedings.

The house did little else than introduce bills. Scarcely were the decks cleared for action when the rush began. The clerks read industriously until after 12 o'clock. There were still more bills on the desk. Somebody moved an adjournment for lunch. The adjournment was until 2:15 o'clock. Members failed to go to lunch. Numbers of them employed the house stenographers and clerks to draw bills which they were determined to get in before the gavel fell on the day's business and with it the opportunity for new legislation.

When the time for convening the afternoon session arrived several members were still busy on bills in the committee rooms. Word was sent to Speaker Clague to delay calling the house to order until every body had accomplished the drafting of new measures so important to their authors in time for introduction. This was done and the big clock in the chamber lacked but a minute of registering 4 o'clock when the final bill of the big list was read and referred. This was offered by John Landefer of Douglas, and was house file No. 855, being a bill for an act to create a state license for persons engaged in the survey of lands.

Little Other Business Transacted.

It took the house less than another minute to adjourn to 2 o'clock Monday afternoon. It had been one of the busiest days of the session. But one bill had been passed, neither the calendar nor the general orders had been touched, and but for the introduction of bills the day had been almost a blank.

The bills cover almost every conceivable subject of legislation. Old-time members did not hesitate to say that of the 102 bills introduced there were at least a dozen woodchucks. They did not include in this number bills of a purely local nature. There were three or four relating entirely to Ramsey county affairs, with as many respectively in which Minneapolis and Duluth solely are concerned. Salary bills bobbed up from different quarters of the house, bills relating to liquor laws, food laws, insurance matters, regulation of public service corporations, etc.

The proceedings were enlivened by a wordy clash over the oleomargarine bill between Burdette Thayer and Mr. D. Flower, in which Mr. Thayer accused Mr. Flower of making a false statement. Mr. Thayer apologized and the incident closed.

The members of the board of control for the management of state charitable and penal institutions are to be elected by a bill introduced by Representative J. A. Gates of Kenyon. Bookmaking and the sale of pools at race tracks of agricultural societies and driving clubs is allowed by all bill introduced by John L. Oleson.

BUSY TIME FOR THE SENATE.

Flood of New Measures Introduced on Last Day.

The last day for the introduction of bills brought a flood of measures in the senate. There were forty-one introduced in the morning session and seventeen in the afternoon session.

Senator Henry Morgan of Albert Lea introduced a bill creating a joint commission of three senators and four representatives to revise the revision of the code and discharging the commission.

Senator Everett of Le Sueur introduced a bill for the punishment of persons, copartnerships or corporations forming pools, trusts or combines. Any violation of the act is made a felony. Charters may be revoked upon conviction and heavy fines may be imposed.

A delegation from the Minnesota Editorial association visited the senate at the afternoon session, and in consequence about a dozen bills relating to publication of official matter by legal newspapers, and defining legal newspapers, were introduced and referred to the committee on printing.

Only three bills, all of a minor character, were passed in the senate.

A measure by Senator McGowan calls for a radical change in the state's dairy and food department by placing the food commission under the control of the state board of health and giving that board power to appoint and remove the members of the dairy and food commission. The bill does not affect the present commission.

STEAMERS BADLY DAMAGED.

Collision Off Halifax, N. S., Crippled Two Large Vessels.

Halifax, N. S., March 27.—The two ocean steamers, the Parisian and the Albano, whose 1,800 passengers were saved from possible death at sea after the collision between the two vessels off the harbor's mouth Saturday by a thrilling fifteen mile race for shallow water, showed plainly Sunday how serious was the accident, the Parisian resting on bottom at her dock and the Albano's forepeak being full of water. The Parisian, which came up the harbor at 6 o'clock Saturday night with a gasping hole in her starboard side from the Albano's sharp bow, filled gradually during the night and at dawn her engine room had been flooded, her fires extinguished, her lower deck was awash and her keel rested on the mud. A large part of her cargo has been damaged by water, but the bulk of the mail, consisting of 400 sacks, was recovered in a dry condition.

The statements of the two commanders of the vessels as to the probable cause of the collision are conflicting, and the courts will be invoked to place the responsibility.

Proceedings have begun in the admiralty court against the Hamburg-American company, owner of the Albano, and Sunday that steamer was libeled for \$150,000 damages in behalf of J. and A. Allen, owners of the Parisian.

Later it was announced that a counter suit would be brought by the German company.

May Break All Records.

New York, March 27.—With a total for the past week of 26,000 aliens and with the prospects of at least 23,000 more to come in on the steamships arriving this week, it is probable that all immigration figures will be broken before the spring is ended.

Sherlund will fix your water pipes.

Do You Need Bracing Up?

No other tonic in the world is like Paine's Celery Compound; no other remedy takes so simple and scientific a way to perform its wonders.

Paine's Celery Compound acts directly upon the nerves, feeding them Nature's nerve food—celery—filling them with new vitality. Through the nerves it acts upon the blood, purifying it, strengthening it, making it pure and strong and red and healthy. No other remedy purifies so gently and so quickly.

Paine's Celery Compound is the one known prescription that purifies without purging or weakening the system in any way.

If you feel "run down," "used up," nervous, tired,—in other words, if you need bracing up, try Paine's Celery Compound.

Learn the full luxury and delight of being always at your best, able to live your life for all that is in it.

Feel the exultant thrill of pure, rich blood and abundant Nerve Force, made by Paine's Celery Compound.

Paine's Celery Compound gives real Nerve Force, instead of the false activity imparted by mere stimulants. It is the best and quickest nerve tonic.

Tired, weak-nerved, thin-blooded, unhappy men and women get quick, sure, hearty health from this celebrated Nerve Vitalizer and Tonic. It drives away lassitude, gives courage and strength. It makes a rich increase in blood supply, and makes the whole system thrill with hearty health.

Miss Mary Stone, Secretary of the Young People's Christian Temperance Society of Milwaukee, tells her experience after feeling "run down" for months.

We have used Paine's Celery Compound in our family for a number of years and a few months ago when I felt so worn out and run down that I thought I would have to give up my work and take a vacation earlier, mother suggested that I try a couple of bottles of Celery Compound. A few doses made me feel quite different, my appetite increased, I began to sleep well at night and felt rested in the morning. In a very short time I felt like a different being and am glad to say that your medicine made it possible for me to continue my work uninterruptedly. Yours very truly,—Miss Mary Stone, 2621 Lisbon Ave., Milwaukee, Wis. Secretary Young People's Christian Temperance Society.

Try Paine's Celery Compound YOURSELF when you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried—when the tired feeling puts its heavy touch upon you.

That is when you need the new Nerve Force, the good blood and fresh vitality that is given by PAINE'S CELERY COMPOUND.

Don't wait. Try Paine's Celery Compound today.

Take just one dose when you go to face the hard part of the day's trials. See how much better you feel.

See how much more easily the trials roll away. Two days' treatment with Paine's Celery Compound will give proof of its marvelous powers.

For 18 years this famous prescription has been the most universally used tonic in the world. It has stood the test of time. Physicians constantly use and prescribe it. No prescription has ever been formulated that equaled it in curative power.

Remember this.—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

WOULD DECLINE GIFT

REV. GLADDEN URGES MISSION BOARD TO REJECT ROCKEFELLER'S DONATION.

WOULD NOT BE HONORABLE

MINISTER SAYS IT WOULD NOT BE RIGHT TO TAKE MONEY AND FIGHT DONOR.

Columbus, O., March 27.—Rev. Dr. Washington Gladden, pastor of the First Congregational church of Columbus and moderator of the general council of Congregational churches of the United States, in a sermon delivered here, discussed the gift of \$100,000 made by John D. Rockefeller to the American board of missions. He said:

"The money proffered to our board of missions comes out of a colossal estate, of which the foundations were laid in the most rapacious manner known to modern civilization.

"The United States government is now engaged in a strenuous attempt to ferret out and punish this injustice, and the people of the United States have a tremendous battle on their hands with the corporate greed which has entrenched itself in this stronghold and has learned to use the railways for the oppression and spoliation of the people.

"And now, on the eve of this battle, they are asked to accept a great gift of money from the man who more completely than any other represents the system they are summoned to fight.

"I hope they are not mean enough to take his money and then turn around and fight him. I hope they are not so faithless to their obligations as to take his money and shut their mouths or become his apologists.

"We do not want this man's money.

To accept it will be to work the contempt of millions of honest men, to reject it will strengthen our churches in the affection and respect of millions who are inclined to doubt whether the churches love God more than mammon.

"Our missions will be richer and stronger without it than with it, and we shall lose nothing by our loyalty to the things unseen and eternal."

REFORMS MONETARY SYSTEM.

Decree of Mexican President Goes Into Effect May 1.

Mexico City, March 27.—President Diaz has issued a decree for the reform of the monetary system authorized by congress in December last. The decree establishes the "peso," or silver dollar, at a value of 50 cents gold and the theoretical unit of the Mexican currency is defined to be the dollar or "peso," of 75 centigrammes of gold. An important feature of the decree is a provision for a reserve exchange fund which at first will consist of \$10,000,000 or \$15,000,000 and may be increased.

The original plan did not provide for the immediate establishment of this fund, but it is now deemed wise to start with one simultaneously with the beginning of the new monetary system.

The mint will be closed April 16 to the free coinage of silver and the new monetary system will go into effect May 1.

The publication of the decree gives great satisfaction in business and commercial circles. It assures a stability of currency and insures business men against loss in importing.

KILLS HIS WIFE AND HIMSELF.

Jealous Chicago Man Ends Two Lives With Bullets.

Chicago, March 27.—A. J. Oldfield, proprietor of a machine shop, shot and instantly killed his wife at night and a moment later put a bullet through his own head, falling dead a few feet from his wife's body. The only explanation of the double tragedy was given by their fourteen-year-old daughter, who witnessed the murder and suicide. She says that her father and mother had frequent quarrels and that her father was very jealous.

GREAT LANDSLIDE IN HUNGARY.

Eight Soldiers Killed and Nineteen Others Injured.

Semlin, Hungary, March 27.—A great landslide occurred here during the day. A squadron of soldiers who went to the rescue of a buried woman suffered severely, eight of their number being killed and nineteen injured.

Thought to Be Work of Incendiary.

St. Louis, March 27.—The freight depot of the Anheuser-Busch Brewing association was destroyed by fire during the day, together with seventeen refrigerating cars, the property of the St. Louis Refrigerating Car company. Total loss, \$125,000; covered by insurance. This is the second serious fire in the Busch properties within two months and the police advance an incendiary theory.

Conrad Schaefer Dead.

Denver, March 27.—Conrad Schaefer, president of the American Stock Growers' association, died here during the day, aged fifty-eight. Mr. Schaefer was one of the foremost figures in the stock industry of the United States.

ALL RECORDS BROKEN

ONE HUNDRED AND TWO NEW BILLS INTRODUCED IN THE HOUSE IN ONE DAY.

SENATORS ALSO PUT IN A VERY BUSY DAY IN PRESENTING NEW LEGISLATION.

St. Paul, March 27.—The house of the Minnesota legislature Saturday shattered all previous legislative records in the matter of introduction of bills. A total of 102 new bills was presented on the last day permitted for the introduction of bills, unless the consent of the governor is first obtained.

Two years ago a total of 63 bills marked the seventieth day of the session. The total number of bills introduced to date is 855. Two years ago, on the corresponding date, there were 908 bills introduced, but while the total is less by 53 than two years ago, no such rush two years ago marked the proceedings.

The house did little else than introduce bills. Scarcely were the decks cleared for action when the rush began. The clerks read industriously until after 12 o'clock. There were still more bills on the desk. Somebody moved an adjournment for lunch. The adjournment was until 2:15 o'clock. Members failed to go to lunch. Numbers of them employed the house stenographers and clerks to draw bills which they were determined to get in before the gavel fell on the day's business and with it the opportunity for new legislation.

When the time for convening the afternoon session arrived several members were still busy on bills in the committee rooms. Word was sent to Speaker Clague to delay calling the house to order until everybody had accomplished the drafting of new measures so important to their authors in time for introduction. This was done and the big clock in the chamber lacked but a minute of registering 4 o'clock when the final bill of the big grist was read and referred. This was offered by John Landeen of Douglas, and was house file No. 855, being a bill for an act to create a state license for persons engaged in the survey of lands.

Little Other Business Transacted.

It took the house less than another minute to adjourn to 2 o'clock Monday afternoon. It had been one of the busiest days of the session. But one bill had been passed, neither the calendar nor the general orders had been touched, and but for the introduction of bills the day had been almost a blank.

The bills cover almost every conceivable subject of legislation. Old-time members did not hesitate to say that of the 102 bills introduced there were at least a dozen woodchucks. They did not include in this number bills of a purely local nature. There were three or four relating entirely to Ramsey county affairs, with as many respectively in which Minneapolis and Duluth solely are concerned. Salary bills bobbed up from different quarters of the house, bills relating to liquor laws, food laws, insurance matters, regulation of public service corporations, etc.

The proceedings were enlivened by a wordy clash over the oleomargarine bill between Burdette Thayer and M. D. Flower, in which Mr. Thayer accused Mr. Flower of making a false statement. Mr. Thayer apologized and the incident closed.

The members of the board of control for the management of state charitable and penal institutions are to be elected by a bill introduced by Representative J. A. Gates of Kenyon. Bookmaking and the sale of pools at race tracks of agricultural societies and driving clubs is allowed by all bill introduced by John L. Olson.

BUSY TIME FOR THE SENATE.

Flood of New Measures Introduced on Last Day.

The last day for the introduction of bills brought a flood of measures in the senate. There were forty-one introduced in the morning session and seventeen in the afternoon session.

Senator Henry Morgan of Albert Lea introduced a bill creating a joint commission of three senators and four representatives to revise the revision of the code and discharging the commission.

Senator Everett of Le Sueur introduced a bill for the punishment of persons, copartnerships or corporations forming pools, trusts or combines. Any violation of the act is made a felony. Charters may be revoked upon conviction and heavy fines may be imposed.

A delegation from the Minnesota Editorial association visited the senate at the afternoon session, and in consequence about a dozen bills relating to publication of official matter by legal newspapers, and defining legal newspapers, were introduced and referred to the committee on printing.

Only three bills, all of a minor character, were passed in the senate. A measure by Senator McGowan calls for a radical change in the state's dairy and food department by placing the food commission under the control of the state board of health and giving that board power to appoint and remove the members of the dairy and food commission. The bill does not affect the present commission.

New York, March 27.—With a total for the past week of 26,000 aliens and with the prospects of at least 23,000 more to come in on the steamships arriving this week, it is probable that all immigration figures will be broken before the spring is ended.

Tired, weak-nerved, thin-blooded, unhappy men and women get quick, sure, hearty tonic from this celebrated Nerve Vitalizer and Tonic. It drives away lassitude, gives courage and strength. It makes a rich increase in blood supply, and makes the whole system thrill with hearty health.

Miss Mary Stone, Secretary of the Young People's Christian Temperance Society of Milwaukee, tells her experience after feeling "run down" for months.

We have used Paine's Celery Compound in our family for a number of years and a few months ago when I felt so worn out and run down that I thought I would have to give up my work and take a vacation earlier, mother suggested that I try a couple of bottles of Celery Compound. A few doses made me feel quite different, my appetite increased, I began to sleep well at night and felt rested in the morning. In a very short time I felt like a different being and am glad to say that your medicine made it possible for me to continue my work uninterrupted. Yours very truly,—Miss Mary Stone, 2621 Lisbon Ave., Milwaukee, Wis. Secretary Young People's Christian Temperance Society.

Try Paine's Celery Compound YOURSELF when you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried—when the tired feeling puts its heavy touch upon you.

That is when you need the new Nerve Force, the good blood and fresh vitality that is given by PAINE'S CELERY COMPOUND.

Don't wait. Try Paine's Celery Compound today.

Take just one dose when you go to face the hard part of the day's trials. See how much better you feel.

See how much more easily the trials roll away. Two days' treatment with Paine's Celery Compound will give proof of its marvelous powers.

For 18 years this famous prescription has been the most universally used tonic in the world. It has stood the test of time. Physicians constantly use and prescribe it. No prescription has ever been formulated that equaled it in curative power.

Remember this.—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

WOULD DECLINE GIFT

REV. GLADDEN URGES MISSION BOARD TO REJECT ROCKEFELLER'S DONATION.

WOULD NOT BE HONORABLE

MINISTER SAYS IT WOULD NOT BE RIGHT TO TAKE MONEY AND FIGHT DONOR.

Columbus, O., March 27.—Rev. Dr. Washington Gladden, pastor of the First Congregational church of Columbus and moderator of the general council of Congregational churches of the United States, in a sermon delivered here, discussed the gift of \$100,000 made by John D. Rockefeller to the American board of missions. He said:

"The money proffered to our board of missions comes out of a colossal estate, of which the foundations were laid in the most rapacious manner known to modern civilization.

"The United States government is now engaged in a strenuous attempt to ferret out and punish this injustice, and the people of the United States have a tremendous battle on their hands with the corporate greed which has entrenched itself in this stronghold and has learned to use the railroads for the oppression and spoliation of the people.

"And now, on the eve of this battle, they are asked to accept a great gift of money from the man who more completely than any other represents the system they are summoned to fight.

"I hope they are not mean enough to take his money and then turn around and fight him. I hope they are not so faithless to their obligations as to take his money and shut their mouths or become his apologists.

"We do not want this man's money. To accept it will be to work the contempt of millions of honest men, to reject it will strengthen our churches in the affection and respect of millions who are inclined to doubt whether the churches love God more than mammon.

"Our missions will be richer and stronger without it than with it, and we shall lose nothing by our loyalty to the things unseen and eternal."

REFORMS MONETARY SYSTEM.

Decree of Mexican President Goes Into Effect May 1.

Mexico City, March 27.—President Diaz has issued a decree for the reform of the monetary system authorized by congress in December last. The decree establishes the "peso," or silver dollar, at a value of 50 cents gold and the theoretical unit of the Mexican currency is defined to be the dollar or "peso," of 75 centigrammes of gold. An important feature of the decree is a provision for a reserve exchange fund which at first will consist of \$10,000,000 or \$15,000,000 and may be increased.

The original plan did not provide for the immediate establishment of this fund, but it is now deemed wise to start with one simultaneously with the beginning of the new monetary system.

The mint will be closed April 16 to the free coinage of silver and the new monetary system will go into effect May 1.

The publication of the decree gives great satisfaction in business and commercial circles. It assures a stability of currency and insures business men against loss in importing.

KILLS HIS WIFE AND HIMSELF.

Jealous Chicago Man Ends Two Lives With Bullets.

Chicago, March 27.—A. J. Oldfield, proprietor of a machine shop, shot and instantly killed his wife at night and a moment later put a bullet through his own head, falling dead a few feet from his wife's body. The only explanation of the double tragedy was given by their fourteen-year-old daughter, who witnessed the murder and suicide. She says that her father and mother had frequent quarrels and that her father was very jealous.

GREAT LANDSLIDE IN HUNGARY.

Eight Soldiers Killed and Nineteen Others Injured.

Semlin, Hungary, March 27.—A great landslide occurred here during the day. A squadron of soldiers who went to the rescue of a buried woman suffered severely, eight of their number being killed and nineteen injured.

Thought to Be Work of Incendiary.

St. Louis, March 27.—The freight depot of the Anhauser-Busch Brewing association was destroyed by fire during the day, together with seventeen refrigerator cars, the property of the St. Louis Refrigerating Car company. Total loss, \$125,000; covered by insurance. This is the second serious fire in the Busch properties within two months and the police advance an incendiary theory.

Conrad Schaefer Dead.

Denver, March 27.—Conrad Schaefer, president of the American Stock Growers' association, died here during the day, aged fifty-eight. Mr. Schaefer was one of the foremost figures in the stock industry of the United States.

ALL RECORDS BROKEN

ONE HUNDRED AND TWO NEW BILLS INTRODUCED IN THE HOUSE IN ONE DAY.

SENATORS ALSO PUT IN A VERY BUSY DAY IN PRESENTING NEW LEGISLATION.

St. Paul, March 27.—The house of the Minnesota legislature Saturday shattered all previous legislative records in the matter of introduction of bills. A total of 102 new bills was presented on the last day permitted for the introduction of bills, unless the consent of the governor is first obtained.

Two years ago a total of 63 bills marked the seventeenth day of the session. The total number of bills introduced to date is 855. Two years ago, on the corresponding date, there were 908 bills introduced, but while the total is less by 53 than two years ago, no such rush two years ago marked the proceedings.

The house did little else than introduce bills. Scarcely were the decks cleared for action when the rush began. The clerks read industriously until after 12 o'clock. There were still more bills on the desk. Somebody moved an adjournment for lunch. The adjournment was until 2:15 o'clock. Members failed to go to lunch. Numbers of them employed the house stenographers and clerks to draw bills which they were determined to get in before the gavel fell on the day's business and with it the opportunity for new legislation.

When the time for convening the afternoon session arrived several members were still busy on bills in the committee rooms. Word was sent to Speaker Clague to delay calling the house to order until everybody had accomplished the drafting of new measures so important to their authors in time for introduction. This was done and the big clock in the chamber lacked but a minute of registering 4 o'clock when the final bill of the big grist was read and referred. This was offered by John Landeen of Douglas, and was house file No. 855, being a bill for an act to create a state license for persons engaged in the survey of lands.

Little Other Business Transacted.

It took the house less than another minute to adjourn to 2 o'clock Monday afternoon. It had been one of the busiest days of the session. But one bill had been passed, neither the calendar nor the general orders had been touched, and but for the introduction of bills the day had been almost a blank.

The bills cover almost every conceivable subject of legislation. Old-time members did not hesitate to say that of the 102 bills introduced there were at least a dozen woodchucks. They did not include in this number bills of a purely local nature. There were three or four relating entirely to Ramsey county affairs, with as many respectively in which Minneapolis and Duluth solely are concerned. Salary bills bobbed up from different quarters of the house, bills relating to liquor laws, food laws, insurance matters, regulation of public service corporations, etc.

The proceedings were enlivened by a wordy clash over the oleomargarine bill between Burdette Thayer and M. D. Flower, in which Mr. Thayer accused Mr. Flower of making a false statement. Mr. Thayer apologized and the incident closed.

The members of the board of control for the management of state charitable and penal institutions are to be elected by a bill introduced by Representative J. A. Gates of Kenyon. Bookmaking and the sale of pools at race tracks of agricultural societies and driving clubs is allowed by a bill introduced by John L. Oleson.

BUSY TIME FOR THE SENATE.

Flood of New Measures Introduced on Last Day.

The last day for the introduction of bills brought a flood of measures in the senate. There were forty-one introduced in the morning session and seventeen in the afternoon session.

Senator Henry Morgan of Albert Lea introduced a bill creating a joint commission of three senators and four representatives to revise the revision of the code and discharging the commission.

Senator Everett of Le Sueur introduced a bill for the punishment of persons, copartnerships or corporations forming pools, trusts or combines. Any violation of the act is made a felony. Charters may be revoked upon conviction and heavy fines may be imposed.

A delegation from the Minnesota Editorial association visited the senate at the afternoon session, and in consequence about a dozen bills relating to publication of official matter by legal newspapers, and defining legal newspapers, were introduced and referred to the committee on printing.

Only three bills, all of a minor character, were passed in the senate. A measure by Senator McGowan calls for a radical change in the state's dairy and food department by placing the food commission under the control of the state board of health and giving that board power to appoint and remove the members of the dairy and food commission. The bill does not affect the present commission.

STEAMERS BADLY DAMAGED.

Collision Off Halifax, N. S., Crippled Two Large Vessels.

Halifax, N. S., March 27.—The two ocean steamers, the Parisian and the Albano, whose 1,800 passengers were saved from possible death at sea after the collision between the two vessels off the harbor's mouth Saturday by a thrilling fifteen mile race for shallow water, showed plainly Sunday how serious was the accident, the Parisian resting on bottom at her dock and the Albano's forepeak being full of water. The Parisian, which came up the harbor at 6 o'clock Saturday night with a gasping hole in her starboard side from the Albano's sharp bow, filled gradually during the night and at dawn her engine room had been flooded, her fires extinguished, her lower deck was awash and her keel rested on the mud. A large part of her cargo has been damaged by water, but the bulk of the mail, consisting of 400 sacks, was recovered in a dry condition.

The statements of the two commanders of the vessels as to the probable cause of the collision are conflicting, and the courts will be invoked to place the responsibility.

Proceedings have begun in the admiralty court against the Hamburg-American company, owner of the Albano, and Sunday that steamer was libelled for \$150,000 damages in behalf of J. and A. Allen, owners of the Parisian.

Later it was announced that a counter suit would be brought by the German company.

May Break All Records.

New York, March 27.—With a total for the past week of 26,000 aliens and with the prospects of at least 23,000 more to come in on the steamships arriving this week, it is probable that all immigration figures will be broken before the spring is ended.

Sherlund will fix your water pipes.
